

Dear FDA:

I am writing to express my opposition to the FDA's new proposed rule and guidance on genetically engineered foods. The proposals are totally inadequate.

I support the following:

All GE foods and food ingredients should ~~be~~ ⁰⁶²¹ ~~labeled~~ ^{or 118-121}

GE foods should not be assumed to be safe and should be subject to mandatory pre market safety testing.

There should be a moratorium on GE foods until long term studies show they are safe for human health and the environment.
